## **Addon Installation:**

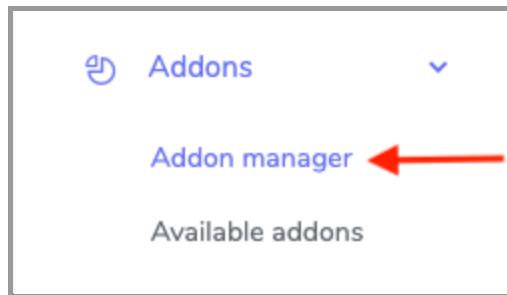

Please follow the below steps to complete the installation process of Certificate Addon.

1. Before starting the installation process, we would suggest you to check your application version. It has to be the latest one. For checking the application you can move to **About** section from **Settings** menu.

2. If you are running the latest version, You are now good to go.
3. First download the addon you want to install on your application from Codecanyon
4. Unzip the downloaded file.
5. You should get Two folders inside. One is for documentation and the other is for the addon file.
6. You do not need to change anything. Like renaming, removing or something else.
7. Now get back to your application. Login as Admin role. After logging in you will be able to keep following.

8. From the left navigation menu, Go to **Addon Manager** from **Addon** section.

9. You will find a list of addons you have so far.
10. Click on the “**Add New Addon**” button on the top. You should redirect to an upload addon view.
11. That view will contain a single field called “**Upload Addons File**”. Just upload the “**certificate.zip**” file.
12. After that hit the “**Install Addon**” button.
13. You should get a success message notification and you can also see your installed addon on the “**Installed Addon**” list below.

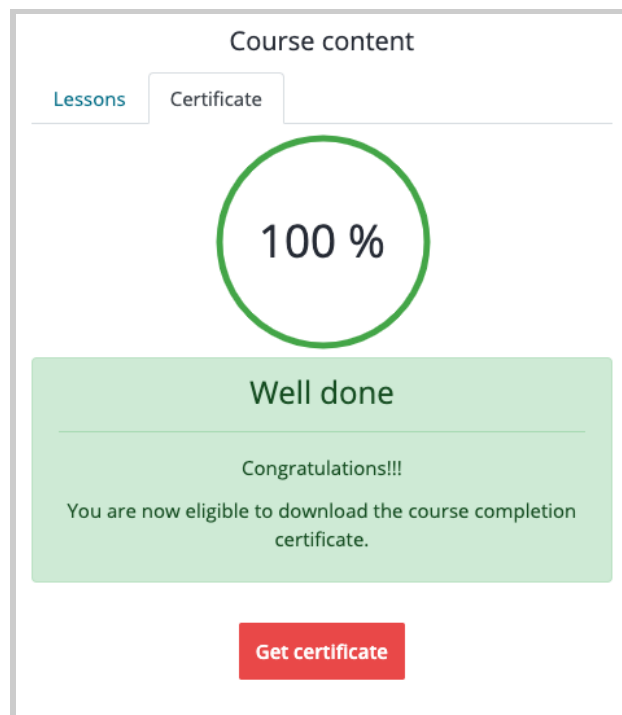

## **Addon Usage:**

If you've installed the addon successfully, You are welcome to this section. As the name suggests, this addon generates course completion certificate for students.

## **Student Panel:**

Student will mostly be benefited by this addon.

From this version, on lesson playing page student will get a tab view with two sections. The first section is for Course Content and the another is for Course completion certificate. If a student completes all the lesson successfully he/she will get a view like below.

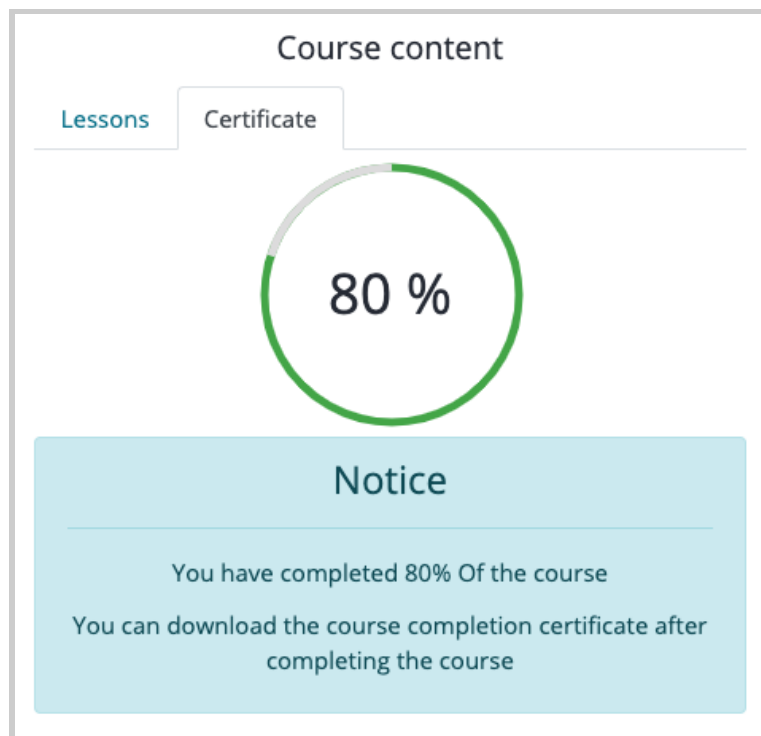

A button will be available there to download the completion certificate.

A demo certificate is attached below.

Without completing a course student will not be able to generate certificate.

If a student clicks on Certificate tab without completing the course, he/she will get a view like below.

## Admin Panel:

After installing this addon, admin will get an option for updating Certificate Template from the backend.

Inside **Settings** section a new menu called “**Certificate Settings**” will be added.

From there admin can update the text of the certificate.

Here is an example of Certificate Template Settings view:

Certificate Template Text

N.B: "{student}" and "{course}" represents student name and course title on the certificate.

This is to certify that Mrs. / Ms. {student} successfully completed the course with on certificate for {course}.

Save

Certificate Template

N.B: make sure that template size is less than "1MB".
